

Reference Sheet

MobyDick Quick 800 in Operation

Model:

MobyDick Quick 800

- Length 800cm
- 2 oscillating spray beams
- Recycling Tank

Customer:

Gravel Works Glattfelden, Zürich

Problem area:

Gravel reclamation combined with a landfill operation. With bad weather a high degree of soiling, also partially under the fenders.

- Up to 200 trucks per day

Oscillating side nozzles for effective washing of the fenders

Intensive cleaning of the tyre profiles through the bottom nozzles

Emptying the Recycling Tank with an excavator
